COMEXPOSIUM

Organised by EQUIP'AUTO SAS

1975 50 YEARS 2025

EQUIP AUTO celebrates half a century of innovation, encounters and progress in the automotive sector, its aftermarket and services for connected mobility. Founded in 1975, it is **the premier tradeshow** for the automotive industry in France.

This anniversary edition marks an important milestone for the automotive industry, bringing together in Paris the various players in the value chain as a whole: **PC, LCV, HGV, motorised two-three, licence-free cars**. An opportunity for the sector's professionals, exhibitors, visitors and journalists, whether from France or abroad, to share their vision of the future.

50 years: a tradeshow committed to sustainable solutions!

The tradeshow EQUIP AUTO, its exhibitors and its visitors will

Philippe BAUDIN,
Chairman of
tradeshow

Aurélie JOUVE,
Exhibition Director

come together again from 14 to 18 October in Paris to celebrate 50 years of business, innovation and encounters.

EQUIP AUTO has evolved and adapted over the course of these 50 years thanks to the loyal support of its exhibitors and the arrival of new emerging companies in the automotive industry, offering the opportunity at each new edition to decode challenges, do business and reveal the many innovations in the sector.

In 2025, we will also be celebrating the 40th anniversary of the International Grands Prix for Automotive Innovation, an unavoidable event for presenting to professionals the major innovations of today and tomorrow that are shaping the future of the automotive, mobility and services sector.

EQUIP AUTO is already hard at work to make this fiftieth anniversary a headline event, fully embracing sustainability in all its forms. We strongly believe that this collective determination will mark a positive turning point for our industry and make our events even more relevant.

This new edition of EQUIP AUTO, at Paris Expo Porte de Versailles, will be a unique opportunity for sharing and collaboration.

VILLAGES

by EQUIP AUTO

ENERGY VILLAGE

Energy suppliers, Oil companies, Battery technology, Charging infrastructure & Retrofitting

NEW FOR 2025: The Energy Village will showcase an exclusive exhibition at EQUIP AUTO, targeting automotive aftermarket workshops.

The goals of this Village are to help workshops optimize their energy costs, gain knowledge and expertise in servicing electric vehicles, invest in charging stations, explore alternative energy solutions, and discover the hydrogen industry.

- **Reduce energy** expenses in workshops.
- **Learn about and service** electric vehicle powertrains.
- **Invest** in electric vehicle charging infrastructure.
- **Explore** alternative energy options.
- **Hydrogen and its applications** in transportation.
- **Electric retrofitting** and its use cases in transportation.
