EQUIP AUTO and EGEA strengthen their collaboration to bring European garage equipment professionals closer to EQUIP AUTO trade shows

Paris, 5 October 2026 – EQUIP AUTO and EGEA (European Garage Equipment Association) are strengthening and expanding their collaboration to further develop ties between EQUIP AUTO events and European professionals in garage equipment, tools, vehicle repair and roadworthiness testing.

Through its network of national trade associations, EGEA brings together European garage equipment manufacturers and suppliers and represents a particularly strategic community for the automotive aftermarket.

This strengthened collaboration will notably increase the visibility of EQUIP AUTO's upcoming events among EGEA's network and members, including EQUIP AUTO Côte d'Ivoire 2026, EQUIP AUTO Morocco-MAT 2027 and EQUIP AUTO Paris 2027, while fostering exchanges between their professional communities.

This strengthened collaboration will also take concrete shape in Paris: EQUIP AUTO Paris 2027, taking place from 12 to 16 October 2027 at Paris Expo Porte de Versailles, will host the EGEA General Assembly, giving its members the opportunity to come together at the heart of the international trade show for the automotive aftermarket and services.

Through this strengthened collaboration, EQUIP AUTO continues to develop its relationships with European professional networks and strengthen the role of garage equipment, repair and service professionals across its events.
